

## An Invitation to the Launch and Unveiling of our Intergenerational Community Art Mural by the Mayor of Stockport

**Saturday 17<sup>th</sup> November from 12.00 Midday**

The inter-generational community project sponsored by the Big Lottery and supported by Community Rail and the Manchester Airport Community Fund has involved the creation of a large-scale mural to be sited behind the station car park. The artwork has been led by local artist, Tracy McGuinness-Kelly and will consist of approximately 300 individual pieces of art painted on wooden discs created by people of a wide age range from across the Marple community. The discs represent themes relevant to the community of our local history, environment, our railway and canals, rail safety, nature and society.

You are warmly invited to join us along with many who have made panels for the mural.
